TERRITORIAL NEWS

Facts Concerning Different Mines
of Arizona.

The old Mowry Mines company has recently made what promises to be a bonanza strike in its properties in the Patagonia district, Santa Cruz county. A shaft has been sunk to the 200 foot level and a crosscut made encountering a vein which had been struck at a higher level. At this greater depth the ore was found to be very rich and the vein was crosscut for the distance of 180 feet in silver and lead ore without a pound of waste and with the width of the new vein still undetermined. Some of this ore assayed over 1000 ounces in silver and is one of the richest strikes of the year. There are now about one hundred men employed on this development work and the shaft is being sunk to the 400-foot level where another crosscut will be made to cut the new vein at that point. These mines were worked by Colonel Mowry more than forty years ago, from which immense quantities of silver were taken, as well as much lead, and the vein now developed is a new discovery which promises to rival any silver mine in the United States.—Mining Review.

The Prescott Herald says a telephone line will be built between the Great Republic mine and Turkey Station, giving direct communication with Prescott. The Great Republic company owns a group of twenty claims in Turkey Creek district, with a shaft down 310 feet. When the 500 level has been reached drifts will be run.

According to the Salt Lake Tribune of November 12th the total shipments of Goldfield ore to the Salt Lake smelters for the month of October amounted to 1100 tons, which yielded \$235,000, or an average of over \$213 per ton. To this total, however, must be added the fifteen tons shipped from the Sandstorm and treated at Soda-ville, netting \$76,000, which will bring the October output up to \$310,000 and raise the average values of the ore to over \$278 per ton.

In an account of operations in Olive Camp district, the Tucson Star says: "The Corda brothers, who are working the old Olive mine, are continuing to take out very high grade ore from the lower levels of their mine. They extract about one carload a month. All of this ore yields from 200 to 1000 ounces of silver ore to the ton.

"In the Paymaster mine, owned by a Boston company, the silver-lead vein, which they have been working for some time, has widened to five and a half feet of silver and galena from which twelve men are extracting three carloads of ore per week, which, is expected, will be increased to four. These ore values all exceed \$150 per ton in gold. This is considered one of the richest and largest strikes of silver and lead ever made in this district.

"Bob Roberts is working the Speculation mine, from which he is extracting very high grade silver and lead ore. He has several thousands of dollars in value on the dump, from which he will soon begin to make shipments."

Chamberlain's Cough Remedy is Pleasant to Take.

The finest quality of granulated loaf sugar is used in the manufacture of Chamberlain's Cough Remedy, and the roots used in its preparation give it a flavor similar to maple syrup, making it quite pleasant to take. Mr. W. L. Roderick, of Poolesville, Md., in speaking of this remedy, says: "I have used Chamberlain's Cough Remedy with my children for several years and can truthfully say it is the best preparation of the kind I know of. The children like to take it and it has no injurious after effect. For sale by all druggists.

Big Bankruptcy Suit.

This morning (Saturday, Nov. 26.) the papers in the biggest bankruptcy case in the history of the Territory were filed in Judge Doan's court at Tombstone, that being the Second judicial district, the amount involved being \$600,000, and the corporation against which the proceedings were filed the Black Diamond Copper Mining company, which operates near Pearce. E. B. Kennedy is the general manager of the company and Allen B. English is the man who first successfully promoted the mine, and turned it into the immense business channels through which it is doing business today, or rather through which it has been doing business.

Judge Kirkpatrick, who holds about half the claims, with Hal Kennedy, has just returned from Tombstone where they have been on matters connected with the case. The petition is brought by A. G. Webb, one of the heaviest stockholders, who is a resident of Cleveland, O. In addition to the big mortgage there is a chattel mortgage of \$5300.

The main suit is brought to secure the recent bond issue, yesterday being the last day of the four months under the statutes during which the unsecured creditors could file a petition affecting the mortgage. There are now \$100,000 of these unsecured claims.

The mine is one of the best properties in the Territory, according to information, and the wealthy stockholders, who live principally in the East, are understood not to be much alarmed, as most of the troubles are ascribed to bad management. There is \$15,000 due the miners for wages, this being the payroll for the last three months, but as it is said the property has a ledge 150 feet wide that runs seven per cent in copper, besides carrying values in silver and gold, there is not much cause to be worried.

United States Deputy Marshal Hill left today for Tombstone to be ready to serve the necessary papers on Monday morning.—Citizen.

Barnes' Estate.

Today the will of the late Judge Barnes was proved in the Probate court according to the time set by the court just after the death of the lawyer, says the Citizen of Nov. 28.

The appraisers appointed were H. B. Tenney, John B. Wright and Chas. F. Hoff, and the valuation set by these gentlemen on the estate was \$317,769.52, of which \$300,000 is personal property and the rest realty. This is exclusive of the life insurance policies carried by the deceased which amount to \$50,000, and with which the court has nothing to do.

The widow will be allowed \$500 per month until the estate is settled in full, which will probably take a year. Meantime the family, in accordance with the usual custom in such matters, will be allowed the family homestead, situated on North Stone avenue, that property having been set aside by the widow. Her appointment as executrix has been confirmed, and as stated in this paper when the matter first came into court she acts without bond.

Pianos! Pianos!

I have just taken the agency for Southern Arizona and Sonora for a new German factory of High Grade Pianos, and will receive the first sample instruments within a few days. These pianos are fully equal to the best owned in Nogales, and will be sold for about one-half the prices that have heretofore been demanded—for cash only.

E. J. PELLEGRIN.
